Secured Connected Business Life

Extra mobile that protects your professional needs

ABOUT INTACTPHONE BOND

IntactPhone BOND (Business On Device) is a mobile device that enables running security and privacy minded organizations by uniting security, central administration and low total cost of ownership. BOND is a heavily secured mobile device delivered with built-in defenses targeting both public and private sectors.

WHY INTACTPHONE BOND

Secured
A high-grade secure mobile device built from the ground up to provide you with the ultimate defense against cyber-crime.

Managed
BOND provides OS-fused command and control functionality that assures managing faultless mobile operation by enterprise mobile policies.

Extra
BOND is purpose-built to serve as a complementary business phone for a unified, secured and private use across the organization.

Low-Priced
A highly affordable price tag allows organizations to mass distribute the phone as an extra corporate owned device and avoid high up-front costs.

Protect Your Mobile Organization

Mobile Security Dome. Always Secure. Always On.

BOND enables organizations to streamline operation, impose best cyber hygiene practices, and run free of privacy limitations.
